hair extension system

# hair length, hair quality, hair enhancement...hairlocs

## what you need to know

1

How does it work?

The Hairlocs Hair Extension System starts with 100% human hair from Europe. The hair is applied using a simple, patented method by a certified stylist. Unlike other methods, the process uses no braiding, sewing, heat or glue and is safe and painless to apply.

Simply section, thread, and secure

Removal is fast, easy and safe!

2

Will it damage my natural hair?

With Hairlocs, there is no tension, stretching, chemicals or heat used during the application or the take down process. Hairlocs are the safest extensions available today.

3

Will the hair match my color and texture?

Absolutely! Your certified Hairlocs specialist will match your color and texture perfectly. Custom blending is our specialty!

4

How do i care for my extensions?

With Hairlocs, you can color, perm and style your hair like normal. Even use your favorite tools like flat irons and hot curlers.

5

How long do they last?

With regular maintenance, the life of your extensions is up to you. Most people can go up to 3 months before needing any service on their hair and the *hair is re-usable* for years.

6

Can you see them?

With 4 different sizes and over 40 colors, the patented "locs" blend naturally with your own hair ...only you will know!

## The Hairlocs Difference

**Quality** - we start with 100% human hair and combine it with the safest and easiest extension system available.

**Easy Application** - apply without glue, heat, sewing or braiding - easy on you and your stylist.

**Easy Takedown** - take down in a fraction of the time of regular extensions without hair damage or discomfort.

**Safe and Worry Free** - safe for all hair types so you are free to color, perm and wear your favorite styles - even use hot tools without concern.

**Value** - Hairlocs extension hair is re-usable over several years of applications so you save money.
